What are B-Goods?

Customer Support - 2024-01-24 - Was ist B-Ware?

B-goods, also known as second-hand goods, are items that we offer at a special price, for example because they are no longer part of our regular sales range but are still fully functional. These may be display items, returned goods or items whose packaging has been damaged during transportation. All these items are carefully checked for functionality. The goods may show slight signs of use.

The Braun service with free shipping and 30-day return policy is of course fully retained.

B-goods purchased via our web shop are covered by our manufacturer's guarantee and the statutory warranty.
